

CHANSE-HERA Call

Crisis - Perspectives from the Humanities

Project extension procedure

Project consortia may apply for a no-cost project extension. The extension request must be agreed upon by all national Principal Investigators and submitted by the Project Leader to the CHANSE secretariat.

The project extension process includes the following steps:

- On behalf of all project PIs, the Project Leader submits the extension request via email to: chanse@ncn.gov.pl no later than 6 months before the project end date. The request should specify the number of months requested for the extension along with justification).
- The NCN notifies all funding organisations involved in the project about the extension request and seeks their approval.
- Once approval from all funding organisations has been confirmed, the NCN forwards this information to the Project Leaders and grants the extension.
- All national PIs, including the Project Leader, are requested to contact their respective national funding organisations regarding the extension procedure and follow their guidance.
